📍 Malolos, Bulacan, 3000

Highly motivated computer science major seeking a position to leverage technical, mathematical expertise, and passion for building innovative applications. Adept at front-end and back-end technologies, committed to delivering high-quality, user friendly solutions. Eager to collaborate with cross-functional teams and contribute to project success while continuously expanding skillset.

## Education

### Bulacan State University - College of Science (2021 - 2025)

Bachelor of Science in Mathematics with Specialization in Computer Science

- 1<sup>st</sup> Year: 1.760, 1.880
- 2<sup>nd</sup> Year: 2.125, 2.103
- 3<sup>rd</sup> Year: 1.725, 1.594

## Experiences

### Highly Succeed Inc. | Backend Developer

- Maintained backend components of web applications using Laravel, REST APIs, Bitbucket and Postman.
- Assisted cross-functional teams including IT Sales and the Unleash Department
- Collaborated with team members in debugging Laravel-based applications.
- Contributed to the Features Library by documenting project workflows and processes under the guidance and the head web developer, improving documentation clarity for future interns.
- Completed Project Management Training

### Class Secretary | 4<sup>th</sup> Year College

- Nominated by the class to serve as secretary during the final year of college.
- Assisted with purchasing class merchandise, helping with coordination and distribution.
- Checked and recorded class attendance to ensure accurate and updated student records.
- Shared announcements and academic schedules with classmates to maintain clear and timely communication.

## Projects

### AJC Bike Shop Point of Sale Website (Team Project)

- Collaborated with a team to develop core functionalities using HTML5, CSS3, JavaScript, MySQL, and PHP to enable data storage, retrieval, and processing.
- Developed the customer database with user roles, security protocols, and permissions, and the documentation of the AJC Bike Shop: Development of an Automated Data Management System.
- Assisted in designing the UI/UX for an intuitive user experience, improving overall usability.

## Skills

**Programming Languages:** HTML5 • CSS3 • JavaScript • Python • MySQL • Markdown

**Development Frameworks:** React • Bootstrap • PHP • TailwindCSS • Laravel • PySide6 • PyQt • Node.js • Alpine.js • DaisyUI

**Software Development Tools:** Git • Github • Github Actions • Github Pages • Bitbucket • Gitkraken • npm • nodemon • Postman • VS Code • QT Designer • Figma • Canva • Jira • Notion

**Soft Skills:** Team Work • Time Management • Adaptability • Creativity • Continuous Learning • Problem Solving

**Interest:** Cryptocurrency Investing and Trading • Reading Self Help and Fantasy Books
